CAREER OBJECTIVE

Eager and dedicated Computer Science student seeking a challenging position to apply acquired skills and knowledge, gain practical experience, and actively contribute to achieving the company's objectives and long-term success, while advancing personal and professional development.

SKILLS

- **Programming Languages:** Python, C, Java
- **Web Technologies:** HTML, CSS, JavaScript
- **Databases:** MySQL, NoSQL,
- **Tools & Technologies:** Git, AI Tools
- **Concepts:** Data Structures and Design Algorithms, Object-Oriented Design, Design Patterns, DBMS, Mathematics, Data analysis,
- **Soft Skills:** Proficient in analytical problem-solving, adept communication, collaborative teamwork, and adaptable to challenging situations.

PROJECTS

1. Kannada Music Recommendation System

Description: Developed a personalized music recommendation system focusing on Kannada songs. Leveraged collaborative filtering and K-Nearest Neighbors (KNN) algorithms to suggest songs based on user preferences and interaction data.

Technologies Used: Python, Flask, KNN, Collaborative Filtering, Postgres, HTML, CSS

Key Contributions:

- Implemented KNN algorithm and collaborative filtering for recommendation logic.
- Developed the back-end using Flask and managed data persistence with Postgres.
- Built a simple, user-friendly interface using HTML and CSS for user interaction and song recommendations.

2. Full-stack Task Management System

Description: Built a full-stack web application for task management, enabling users to create, assign, and track tasks with real-time updates. Integrated AI tools to prioritize tasks based on deadlines and workload.

Technologies Used: AngularJS, Flask, Postgres, HTML, CSS

Key Contributions:

- Developed the front-end using AngularJS for an interactive and responsive user experience.
- Created the back-end using Flask, integrated with Postgres for task data management.
- Added features like real-time task prioritization and notification system to enhance productivity.

EDUCATION

B.E in CS

Nagarjuna college of Engineering and Technology

Bengaluru

2023-2027 | 8.75 CGPA
